Løsningsforslag

Kalenderpuslespil

1.4.2026

På de følgende sider findes løsningsforslag for samtlige lovlige datoer. For hver dato angives et løsningsforslag der benytter brikker der vender forsiden opad, og et forslag der benytter brikker, der vender bagsiden opad. Brikkernes forside er tegnet grøn, bagsiden er tegnet lilla.

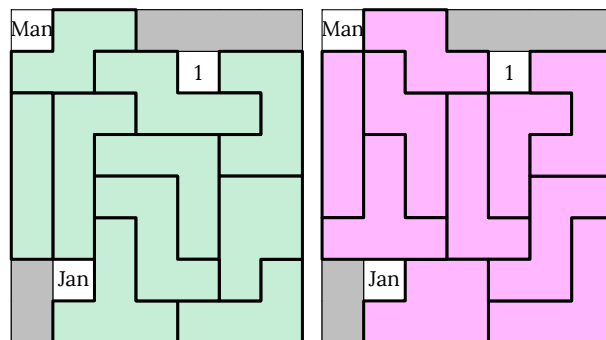

Under hvert figurpar er angivet hvor mange mulige løsninger der er for den pågældende dato. En tekst som fx »17/30/1689 løsninger« angiver at der findes 17 løsninger med brikkernes forside opad, 30 løsninger med brikkernes bagside opad og 1689 løsninger hvis man er ligeglad med hvilken side brikkerne vender opad.

Næsten alle datoer har både »forsideløsninger« og »bagsideløsninger«, men enkelte har kun én af delene: Fx har torsdag den 5. januar ingen bagsideløsninger, og lørdag den 5. januar har ingen forsideløsninger.

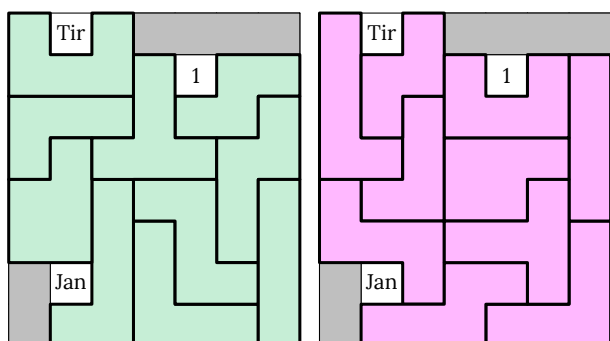

Som den eneste dato har mandag den 26. september ingen løsninger medmindre man blander for- og bagsider.

Claus Tøndering
